STICKER CO.

A Small Business Working to Make a Big Difference

About Us

Sticking Together is a small business that sells hand-made stickers. The company sells individual stickers (for hydro flasks, bikes, skateboards, cars, etc.), themed sheets, and custom stickers. Subjects like politics, environmentalism/sustainability, memes, jokes/puns, quotes, shows, and movies will thematize the artwork of the stickers being sold.

In addition to selling stickers, the company seeks to use some of its profits to donate to charitable organizations (local, national, and global). Sticking Together wishes to portray creativity and unity.
